## Defense Cybersecurity Assurance Program (DCAP) Overview Match Funding Opportunity

The Defense Cybersecurity Assurance Program, (DCAP), through a grant from the Department of Defense's Office of Economic Adjustment, provides support to companies that have a strong need for support in achieving compliance with NIST 800-171.

DCAP Supports defense contractors throughout the supply chain by offering expert cybersecurity consulting services and matching funds to qualifying companies that need assistance in becoming compliant with NIST SP 800-171. Learn about DCAP's Goals and Eligibility and hear from one of their pre-vetted cyber security consultants.

## Cybersecurity Round Table

This is your opportunity to speak with defense related businesses working toward or having achieved the NIST 800-171 standard and to share ideas for meeting the standard between companies. This is an opportunity to speak openly with one another without a company specializing in selling their services in the room. Please come to answer or ask these questions and more:

- Are you aware of any cost savings solutions for multiple companies to share?
- What solution is your company using to comply?
- Would your solution benefit other local companies?
- Are you hiring, using contractors, or using a third party to meet the standard?
- Has any company purchased cyber liability and crime insurance?
- Are you ready to make an incident report?

## Agenda

1:00 – 3:00 p.m.	Defense Cybersecurity Assurance Program
3:00 – 3:30 p.m.	Break
3:30 – 4:30 p.m.	Defense Clients/Contractors Open Discussion Roundtable
